

Constellize Skill Ecosystem

AI-orchestrated software development methodology for Claude Code

674145

PLUGINS SKILLS AGENTS SDLC PHASES

/constellize-harness:orchestrate

Assess your project → Propose a plan → Execute skills in sequence

H Harness

5 skills

The entry point. Assesses project state across 7 dimensions, determines where you are in the SDLC, and orchestrates the right skills.

orchestrate assess plan execute init

assess → plan → execute → Memory → Design → Craft → Deliver → Grow
